AngularJS for .Net Developers

Tom Huynh – 2014
tom.huynh.us@gmail.com

Omaha Microsoft Technology .Net Group

Agenda

* Web programming – Client Side development
* Why AngularJS
* Architecture: AngularJS in SPA .Net App
* AngularJS Overview
* Further Angular topics

Client side web development

* Why?
* Evolution:
    * Built in JS
    * Some jQuery
    * Lots of JS
    * MVC Framework
    * Mini SPA (client side routing)
    * SPA

Why AngularJS

* Dependency Injection (DI) for modules
* Directives
* Testability (karma/nodejs)
* Other:
    * Strong support community (Lead by Google)
    * Flexible, Maintainable
    * Job ☺

AngularJS Overview

* MVC pattern
* SPA with AngularJS
* Some basic features
* Custom directive
* Moving from JQuery mindset

Further Angular topics

* BindOnce
* Testing with AngularJS
* Promises
